| testing at sea china              | Successful job run from Mar 17 2011 9:02PM until Mar 17 2011 9:03PM |
| testing at sea china              | Successful job run from Mar 10 2011 9:02PM until Mar 10 2011 9:02PM |
| testing at sea china              | Successful job run from Mar 3 2011 9:02PM until Mar 3 2011 9:02PM   |

**My Reports:**

View the last 10 reports that have been generated by this user.

**On-line booking** provides shippers with a 29 second booking that can be made 24 hours a day 7 days a week. With the ability to use templates the easy of on-line booking is immeasurable.

**NetCaptain Alerts** provide reactive, proactive and aging information about your specific shipments. Alerts provide data when certain events take place (I.e. bill of lading created), and when certain events do not take place (I.e. port cut-off).

**Report Manger** provides automatic data directly to the shipper via email. Establish your own specific parameters and data fields. Set the desired frequency and wait for the system to automatically send you the data.

## Butch Mickus
